SUMMARY

B.Tech graduate in Information Technology (CGPA 8.72/10) with hands-on experience in Java, SQL, and Object-Oriented Programming through the Infosys Foundation Program, plus three independent projects applying Machine Learning, Deep Learning, and Computer Vision in Python. Skilled in JDBC, database design, debugging, and Agile software development practices. Seeking a Software Engineer role to build scalable, reliable applications.

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, JavaScript

Core Java: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, File Handling, JDBC

CS Fundamentals: Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks

Databases: MySQL, PostgreSQL, HSQLDB

Software Development: SDLC, Agile Methodology, Software Testing, Unit Testing, Debugging, Git, Version Control

Web Technologies: HTML, CSS

AI / Machine Learning: Machine Learning, Deep Learning, Computer Vision, OpenCV

Tools & Platforms: Eclipse IDE, Visual Studio Code, GitHub, Linux, Windows

EXPERIENCE

Infosys Ltd., Mysuru

Feb 2026 - Jun 2026

Trainee, Foundation Program (Java & SQL Development Track)

- Completed the Infosys Foundation Program, a structured training program covering Java, SQL, DBMS, SDLC, Agile methodologies, secure software development, and cloud fundamentals.
- Built Java applications applying OOP principles, the Collections Framework, JDBC, exception handling, file handling, and multithreading.
- Designed and optimized SQL queries involving joins, normalization, views, and stored procedures for database operations.
- Performed debugging, unit testing, and code analysis to improve application quality and maintainability.
- Completed multiple Java and SQL coding assignments and technical assessments within an Agile-based learning environment.

The Singareni Collieries Company Limited, Srirampur

Feb 2022 - Aug 2022

Industrial Trainee, IT Department

- Assisted with desktop configuration, software installation, and operating system maintenance for end users.
- Supported hardware and software troubleshooting and basic network configuration for IT infrastructure.
- Maintained technical documentation and resolved day-to-day IT support issues.

PROJECTS

DeepEYE - AI-Based Video Surveillance with Anomaly Detection

Technologies: Python, OpenCV, Deep Learning

- Built a video surveillance system that applies computer vision and deep learning to detect abnormal activity from real-time video streams.
- Implemented an image preprocessing, feature extraction, and real-time analysis pipeline for continuous video monitoring and event detection.

Harvestify - Smart Agriculture Recommendation System

Technologies: Python, Machine Learning, Deep Learning

- Developed a recommendation system for crop selection, fertilizer recommendation, and plant disease prediction using supervised ML models.
- Applied data preprocessing and feature engineering to generate data-driven recommendations supporting agricultural decision-making.

AINAT - Artificial Intelligence Attendance Terminal

Technologies: Python, OpenCV, Face Recognition

- Built a face-recognition-based attendance management system with real-time face detection and automated attendance recording.
- Reduced manual attendance processing effort by automating identity capture and log generation.

EDUCATION

Gokaraju Rangaraju Institute of Engineering and Technology

2022 - 2025

Bachelor of Technology (B.Tech), Information Technology - CGPA: 8.72/10

Singareni Collieries Polytechnic College

2019 - 2022

Diploma, Computer Engineering - CGPA: 8.14/10

CERTIFICATIONS

- Programming and Object-Oriented Programming using Java - Infosys
- Database Management System (HSQLDB) - Infosys
- Foundations of SDLC, Agile and Lean Methodologies - Infosys
- Basics of Cybersecurity in SDLC - Infosys
- Cloud Basics for Freshers - Infosys
- AWS Academy Cloud Foundations
- Java Training - IIT Bombay Spoken Tutorial
- Networking Essentials - Cisco
- Deloitte Australia Data Analytics Job Simulation - Forage

ACHIEVEMENTS

- Won Second Prize at the Smart Campus Hackathon, competing among 300+ participating teams.
- Successfully completed the Infosys Foundation Program, including all technical assessments and coding assignments.
